

Taylor Thomas

taylor@wtthomas.org | Raleigh, NC

EDUCATION:

North Carolina State University

B.S. in Computer Science, Cybersecurity Concentration

Member of HackPack offensive security club, ISSA school chapter, and NCSU Cybersecurity Liaisons Program.

TECHNICAL SKILLS & PROJECTS

Development:

Java + SpringBoot, Python, PyTorch, Docker, React, SQL, REST APIs, GitHub Actions CI/CD, Jenkins

Administration & Security:

PowerShell, Group Policy, Microsoft Suite, RAS / VDI Infrastructure, TrueNAS (ask me about my homelab!), Network Administration, Virtualization, Strong Linux Skills.

www.wtthomas.org

My personal website where I publish articles focused on privacy, security, and engineering topics.

BitcoinCanary

An open-source, private Bitcoin monitoring solution built for Docker and TrueNAS.

NetApp LabETA

Worked on a team of six CS students to create prediction tools for NetApp's ONTAP performance engineering lab.

Experience in full stack development, statistical data analysis, and ML / AI development using scikit and PyTorch.

Personal Portfolio Sites Workshop

I teach a recurring workshop helping CS students create personal portfolios using GitHub Pages. This workshop is endorsed by the CS department, the Computing Success Center, and NC State's ACM chapter.

EXPERIENCE

Software Engineering Intern, Fidelity Investments, Durham, NC

June 2026 – PRESENT

As part of the Architecture Technology Foundations team in the Asset Management business unit, I am working on a software release quality gating pipeline to support AI-assisted development. 10-week internship.

Security & System Administration Intern, Sunrock Industries, Raleigh, NC

August 2025 – May 2026

Responsible for troubleshooting and maintenance on servers and networks. Worked on migrating VDI infrastructure from Citrix to Parallels. Worked on upgrading legacy application from InterBase to SQL. Researched, proposed, and executed a web host migration, reducing cost by 94%. Created security research environment using ParrotOS and VirtualBox.

IT Intern, Sunrock Industries, Raleigh, NC

May 2025 – August 2025

Responsible for the IT help desk, building and deploying IT equipment, and developing internal tools and documentation. Decommissioned entire backlog of 100+ endpoints, stood up a company GitHub with GitHub Actions CI/CD for internal company tools. Performed critical work during the company's migration from an on-prem ERP to a cloud ERP; performed beta testing, refactored reports, and migrated SQL services to the cloud environment.

Parts & Service Representative, Shaw RV, Youngsville, NC

August 2022 – January 2025

Responsible for all customer-facing elements of the Parts and Service Departments. Handled OEM and aftermarket parts requests for over-the-counter sales and service work. Performed service writer duties from drop-off to pick-up including intake, quoting, procurement, scheduling, warranty administration, and all customer communication.

Detailer, Shaw RV, Youngsville, NC

June 2022 – August 2022

Performed interior and exterior cleaning of all RVs. Responsible for basic quality assurance and cosmetic repairs.
